EDUCATION

National Institute of Technology, Silchar Silchar, Assam
B.Tech in Electronics and Instrumentation Engineering; CGPA: 6.04/10 Aug 2024 – June 2028

Defence Pub Sr Sec School Jhunjhunu, Rajasthan
Class XII (BSER); Stream: Science; Percentage: 81.60% 2022

Prince International School Jhunjhunu, Rajasthan
Class X (BSER); Percentage: 75.67% 2020

EXPERIENCE

CertiWiseHub *Remote*
Finance Intern Jan 2026 – Feb 2026

- Conducted comprehensive equity research and fundamental analysis to evaluate the financial performance and investment potential of target companies.
- Analyzed key financial metrics and market indicators to assess overall business valuation and growth trends.
- Gained practical, hands-on exposure to quantitative financial analysis, stock market fundamentals, and data-driven investment decision-making.

PROJECTS

Quantamental Market-Regime Arbitrage Pipeline *Python, Pandas, SQL, Streamlit*

- Architected a quantitative pipeline using Pandas to ingest unstructured financial news APIs and align them with structured equity intervals (OHLCV).
- Mitigated lookahead bias via strict rolling data logic and engineered a financial sentiment scoring framework using NLTK (VADER).
- Integrated the VIX to dynamically adapt trading signals across regimes and programmed vectorized backtests, deployed via Streamlit.

Multi-Asset Portfolio Optimization Risk Engine *Python, NumPy, SciPy, Plotly, Excel*

- Built data aggregation scripts normalizing 5+ years of daily prices for a multi-asset universe across equities, commodities, and fixed-income indices.
- Modeled variance-covariance matrices for correlation shifts and programmed a Monte Carlo engine (20,000+ iterations) to map the MPT Efficient Frontier.
- Utilized SciPy to isolate Maximum Sharpe Ratio weights and developed reporting tools tracking Value-at-Risk (VaR) and Maximum Drawdown.

SKILLS

- **Programming & Languages:** Python, SQL (PostgreSQL/MySQL), C++, R, LaTeX
- **Data Analysis & Libraries:** Pandas, NumPy, SciPy, Time-Series Analysis, Vectorized Backtesting
- **Tools & Visualization:** Power BI, Tableau, Streamlit, Git/GitHub, Jupyter Notebooks, Advanced Excel
- **Soft Skills:** Cross-Functional Leadership, Strategy Communication, Data-Driven Decision Making

POSITIONS OF RESPONSIBILITY

Rajasthan Cultural Association (RCA) | *Executive* Aug 2024 – Present

- Spearheaded 'Rajwada', the flagship cultural festival, managing end-to-end logistics including venue arrangements, authentic catering, and scheduling diverse dance performances.
- Managed cross-functional student teams to ensure seamless event execution, fostering regional inclusivity and engagement across the campus community.

Annual Stock Trading Competition | *Event Head* Feb 2026

- Conceptualized and directed a two-day financial literacy event, commencing with a comprehensive workshop on market fundamentals, technical analysis, and risk management.
- Orchestrated a live mock-trading competition, overseeing trading platform setup, real-time leaderboard tracking, and resolving participant queries.

HONORS AND ACHIEVEMENTS

- **Siemens Scholarship:** Selected among the top 300 students pan-India for this prestigious national scholarship, recognizing academic excellence and technical aptitude.
- **Codequest:** Secured the 2nd position in this flagship technical club event, demonstrating strong problem-solving skills and rapid execution during a competitive coding quiz.
